Billing Instructions (Hospital)

Updated: 5/3/2021

INTRODUCTION

The purpose of this chapter is to explain the documentation procedures for billing the Virginia Medicaid Program.

Two major areas are covered in this chapter:

General Information - This section contains information about the timely filing of claims, claim inquiries, and supply procedures.

Billing Procedures - Instructions are provided on the completion of claim forms, submitting adjustment requests, and additional payment services.

Electronic Submission of Claims

Electronic billing is a fast and effective way to submit Medicaid claims. Claims will be processed faster and more accurately because electronic claims are entered in to the claims processing system directly. For more information contact our fiscal agent,

DIRECT DATA ENTRY (DDE)

As part of the 2011 General Assembly Appropriation Act - 300H which requires that all new providers bill claims electronically and receive reimbursement via Electronic Funds Transfer (EFT) no later than October 1, 2011 and existing Medicaid providers to transition to electronic billing and receive reimbursement via EFT no later than July 1, 2012, DMAS has implemented the Direct Data Entry (DDE) system. Providers can submit claims quickly and easily via the Direct Data Entry (DDE) system. DDE will allow providers to submit Professional (CMS-1500), Institutional (UB-04) and Medicare Crossover claims directly to DMAS via the Virginia Medicaid Web Portal. Registration through the Virginia Medicaid Web Portal is required to access and use DDE. The DDE User Guide, tutorial and FAQs can be accessed from our web portal at: www.virginiamedicaid.dmas.virginia.gov. To access the DDE system, select the Provider Resources tab and then select Claims Direct Data Entry (DDE). Providers have the ability to create a new initial claim, as well as an adjustment or a void through the DDE process. The status of the claim(s) submitted can be checked the next business day if claims were submitted by 5pm. DDE is provided at no cost to the provider.

Timely Filing

The Medical Assistance Program regulations require the prompt submission of all claims. Virginia Medicaid is mandated by federal regulations [42 CFR § 447.45(d)] to require the initial submission of all claims (including accident cases) within 12 months from the date of service. Providers are encouraged to submit billings within 30 days from the last date of service or discharge. Federal financial participation is not available for claims, which **are not** submitted within 12 months from the date of the service. Submission is defined as actual, physical receipt by DMAS. In cases where the actual receipt of a claim by DMAS is undocumented, it is the provider's responsibility to confirm actual receipt of a claim by DMAS within 12 months from the date of the service reflected on a claim. If billing electronically and timely filing must be waived, submit the DMAS-3 form with the appropriate attachments. The DMAS-3 form is to be used by electronic billers for attachments. (See Exhibits) Medicaid is not authorized to make payment on these late claims, except under the following conditions:

Retroactive Eligibility - Medicaid eligibility can begin as early as the first day of the third month prior to the month of application for benefits. All eligibility requirements must be met within that time period. Unpaid bills for that period can be billed to Medicaid the same as for any other service. If the enrollment is not accomplished in a timely way, billing will be handled in the same manner as for delayed eligibility.

Delayed Eligibility - Medicaid may make payment for services billed more than 12 months from the date of service in certain circumstances. Medicaid denials may be overturned or other actions may cause eligibility to be established for a prior period. Medicaid may make payment for dates of service more than 12 months in the past when the claims are for an enrollee whose eligibility has been delayed. It is the provider's obligation to verify the patient's Medicaid eligibility. Providers who have rendered care for a period of delayed eligibility will be notified by a copy of a letter from the local department of social services which specifies the delay has occurred, the Medicaid claim number, and the time span for

which eligibility has been granted. The provider must submit a claim on the appropriate Medicaid claim form within 12 months from the date of the notification of the delayed eligibility. A copy of the "signed and dated" letter from the local department of social services indicating the delayed claim information must be attached to the claim.

Denied claims – Denied claims must be submitted and processed **on or before thirteen months from date of the initial denied claim where the initial claim was filed within the 12 months limit to be** considered for payment by Medicaid. The procedures for resubmission are:

- Complete invoice as explained in this billing chapter.
- **Attach** written documentation to justify/verify the explanation. This documentation may be continuous denials by Medicaid or any dated follow-up correspondence from Medicaid showing that the provider has actively been submitting or contacting Medicaid on getting the claim processed for payment. Actively pursuing claim payment is defined as documentation of contacting DMAS at least every six months. Where the provider has failed to contact DMAS for six months or more, DMAS shall consider the resubmission to be untimely and no further action shall be taken. If billing electronically and waiver of timely filing is being requested, submit the claim with the appropriate attachments. (The DMAS-3 form is to be used by electronic billers for attachments. See exhibits).

Accident Cases - The provider may either bill Medicaid or wait for a settlement from the responsible liable third party in accident cases. However, all claims for services in accident cases must be billed to Medicaid within 12 months from the date of the service. If the provider waits for the settlement before billing Medicaid and the wait extends beyond 12 months from the date of the service, Medicaid shall make no reimbursement.

Other Primary Insurance - The provider should bill other insurance as primary. However, all claims for services **must be billed to Medicaid within 12 months from the date of the service.** If the provider waits for payment before billing Medicaid and the wait extends beyond 12 months from the date of the service, Medicaid shall make no reimbursements. If payment is made from the primary insurance carrier after a payment from Medicaid has been made, an adjustment or void should be filed at that time.

Other Insurance - The member can keep private health insurance and still be covered by Medicaid or FAMIS Plus. The other insurance plan pays first. Having other health insurance does not change the co-payment amount that providers can collect from a Medicaid member. For members with a Medicare supplemental policy, the policy can be suspended with Medicaid coverage for up to 24 months while the member has Medicaid without penalty from their insurance company. The members must notify the insurance company. The member must notify the insurance company within 90 days of the end of Medicaid coverage to reinstate the supplemental insurance.

Submit the claim in the usual manner by mailing the claim to billing address noted in this chapter.

Billing Invoices (Hospital)

The requirements for submission of hospital billing information and the use of the appropriate claim form or billing invoice are dependent upon the type of service being rendered by the provider and/or the billing transaction being completed. Listed below is the billing invoice to be used:

- Health Insurance Claim Form, CMS-1450 (UB-04)

The requirement to submit claims on an original UB 04 claim form is necessary because the individual signing the form is attesting to the statements made on the reverse side of this form; therefore, these statements become part of the original billing invoice.

The submitter of this form understands that misrepresentation or falsification of essential information as requested by this form may serve as the basis for civil monetary penalties and assessments and may upon conviction include fines and/or imprisonment under federal and/or state law(s).

Medicaid reimburses providers for the coinsurance, copays and deductible amounts on Medicare claims for Medicaid members who are dually eligible for Medicare and Medicaid. However, the amount paid by Medicaid in combination with the Medicare payment will not exceed the amount Medicaid would pay for the service if it were billed solely to Medicaid.

Automated Crossover Claims Processing (Hospital)

Most claims for dually eligible members are automatically submitted to DMAS. The Medicare claims processor will submit claims based on electronic information exchanges between these entities and DMAS. As a result of this automatic process, the claims are often referred to as “crossovers” since the claims are automatically crossed over from Medicare to Medicaid.

To make it easier to match providers to their Virginia Medicaid provider record, providers are to use their National Provider Identification (NPI) Provider Number. When a crossover claim includes a NPI Provider Number, the claim will be processed by DMAS using the NPI Provider Number. **In order for Medicare Crossover claims to be paid, the NPI number used on claims submitted to Medicare must be enrolled with Virginia Medicaid.** Failure to submit and enroll with Medicaid using your NPI will result in claims being denied. Should providers not share their NPI, DMAS will not be able to process the claims nor be able to notify a provider of the denial. Information on enrollment for the purpose of insuring Medicare claims are crossed over should go to the DMAS web page at: www.dmas.virginia.gov and click on the Provider Enrollment option.

Providing the appropriate NPI Provider Number on the original claim to Medicare will reduce the need for submitting follow-up paper claims.

DMAS will no longer attempt to match a Medicare provider number to a Medicaid provider number. If an NPI is submitted, DMAS will only use this number.

Requests for Billing Materials (Hospital)

REQUESTS FOR BILLING MATERIALS

Health Insurance Claim Form UB-04 CMS-1450

The UB-04 CMS-1450 is a universally accepted claim form that is required when billing DMAS for covered services. The form is available from form printers and the U.S. Government Printing Office. Specific details on purchasing these forms can be obtained by writing to the following address:

U.S. Government Print Office

Superintendent of Documents

Washington, DC 20402

(202) 512-1800 (Order and Inquiry Desk)

Note: The UB-04 CMS-1450 will not be provided by DMAS.

Remittance/Payment Voucher (Hospital)

DMAS sends a check and remittance voucher with each weekly payment made by the Virginia Medical Assistance Program. The remittance voucher is a record of approved, pended, denied, adjusted, or voided claims and should be kept in a permanent file for five (5) years.

The remittance voucher includes an address location, which contains the provider's name and current mailing address as shown in the DMAS' provider enrollment file. In the event of a change-of-address, the U.S. Postal Service **will not** forward Virginia Medicaid payment checks and vouchers to another address. Therefore, it is recommended that DMAS' Provider Enrollment and Certification Unit be notified in sufficient time prior to a change-of-address in order for the provider files to be updated.

Providers are encouraged to monitor the remittance vouchers for special messages since they serve as notifications of matters of concern, interest and information. For example, such messages may relate to upcoming changes to Virginia Medicaid policies and procedures; may serve as clarification of concerns expressed by the provider community in general; or may alert providers to problems encountered with the automated claims processing and payment system.

Ansi X12N 835 Health Care Claim Payment Advice (Hospital)

The Health Insurance Portability and Accountability Act (HIPAA) requires that Medicaid, comply with the electronic data interchange (EDI) standards for health care as established by the Secretary of Health and Human Services. The 835 Claims Payment Advice transaction set is used to communicate the results of claim adjudication. DMAS will make a payment with electronic funds transfer (EFT) or check for a claim that has been submitted by a provider (typically by using an 837 Health Care Claim Transaction Set). The payment detail is electronically posted to the provider's accounts receivable using the 835.

In addition to the 835 the provider will receive an unsolicited 277 Claims Status Response for the notification of pending claims. For technical assistance with certification of the 835 Claim Payment Advice please contact our fiscal agent, Conduent at (866) 352-0766.

Claim Inquiries and Reconsideration (Hospital)

Inquiries concerning covered benefits, specific billing procedures, or questions regarding Virginia Medicaid policies and procedures should be directed to:

Customer Services
Department of Medical Assistance Services
600 East Broad Street, Suite 1300
Richmond, VA 23219

A review of additional documentation may sustain the original determination or result in an approval or denial.

Telephone Numbers

1-804-786-6273	Richmond Area and out-of-state long distance
1-800-552-8627	In-state long-distance (toll-free)

Member verification and claim status may be obtained by telephoning:

1-800- 772-9996	Toll-free throughout the United States
1-800- 884-9730	Toll-free throughout the United States
1-804- 965-9732	Richmond and Surrounding Counties
1-804- 965-9733	Richmond and Surrounding Counties

Member verification and claim status may also be obtained by utilizing the Web-based Automated Response System. See Chapter I for more information.

Billing Procedures (Hospital)

Hospitals and other practitioners must use the appropriate claim form or billing invoice when billing the Virginia Medicaid Program for covered services provided to eligible Medicaid enrollees. Each enrollee's services must be billed on a separate form.

The provider should carefully read and adhere to the following instructions so that claims can be processed efficiently. Accuracy, completeness, and clarity are important. Claims cannot be processed if applicable information is not supplied, in correct national form and format, or is illegible. Completed claims should be mailed to:

Department of Medical Assistance Services

P.O. Box 27443

Richmond, Virginia 23261-7443

Or

Department of Medical Assistance Services

CMS Crossover

P. O. Box 27444

Richmond, Virginia 23261-7444

Electronic Filing Requirements (Hospital)

DMAS is fully compliant with 5010 transactions and will no longer accept 4010 transactions after March 30, 2012.

The Virginia MMIS will accommodate the following EDI transactions according to the specification published in the Companion Guide version 5010.

270/271 (5010)	Health Insurance Eligibility Request/ Response Verification for Covered Benefits
276/277 (5010)	Health Care Claim Inquiry to Request/ Response to Report the Status of a Claim
277	Unsolicited Response (5010)
820	Premium Payment for Enrolled Health Plan Members (5010)
834	Enrollment/ Disenrollment to a Health Plan (5010)
835	Health Care Claim Payment/ Remittance (5010)

837	Dental Health Care Claim or Encounter (5010)
837	Institutional Health Care Claim or Encounter (5010)
837	Professional Health Care Claim or Encounter (5010)
NCPDP	National Council for Prescription Drug Programs Batch (5010)
NCPDP	National Council for Prescription Drug Programs POS (5010)

Although not mandated by HIPAA, DMAS has opted to produce an Unsolicited 277

transaction to report information on pended claims.

All 5010/D.0 Companion Guides are available on the web portal:

https://vamedicaid.dmas.virginia.gov/edi or contact EDI Support at 1-866-352-0766 or dmasedisupport@dmas.virginia.gov.

Although not mandated by HIPAA, DMAS has opted to produce an Unsolicited 277 transaction to report information on pended claims.

For providers that are interested in receiving more information about utilizing any of the above electronic transactions, your office or vendor can obtain the necessary information at our fiscal agent's website: https://www.virginiamedicaid.dmas.virginia.gov.

Present on Admission Indicator (POA), Hospital Acquired Conditions (HAC) and Never Events

On all claims submitted by acute care inpatient hospital stays, DMAS requires the use of the POA indicators. Claims submitted without the appropriate indicator on the claim will be denied. Present on Admission is defined as the illness or condition present at the time the order for inpatient admission occurs – conditions that develop during an outpatient encounter, including emergency department, observation, or outpatient surgery, are considered as present on admission. The POA indicator is assigned to the principal and secondary ICD diagnoses (as defined in Section II of the Official Guidelines for Coding and Reporting) and the External Cause of Injury Diagnosis codes. DMAS will follow the Present on Admission reporting guidelines as defined by the Department of Health and Human Services (DHHS).

- The POA indicator is a required field on the claim and is to be indicated if:
- The diagnosis was known at the time of admission, or
- The diagnosis was clearly present, but not diagnosed, until after admission took place, or
- Was a condition that developed during an outpatient encounter

Indicator Code Definition:

Y = Yes

N = No

U = No information in the record

W = Clinically undetermined

1 or blank = Exempt from POA reporting.

This code is used on the 837I and is the equivalent of a blank on the UB-04

CMS has a defined listing of ICD-diagnosis codes that are exempt from the requirement of a POA. DMAS has adapted these same diagnosis codes as exempt. For a complete listing of the exempt diagnosis codes, please refer to the Centers for Medicare and Medicaid (CMS) website at: http://www.cdc.gov/nchs/icd/icd10cm.htm Information related to submitting an electronic claim can be found at the DMAS website: https://www.virginiamedicaid.dmas.virginia.gov/wps/portal/EDICompanionGuides.

Hospital Acquired Conditions (HACS)

Effective with claims received on or after January 1, 2010, DMAS implemented the Center for Medicare and Medicaid Services (CMS) Hospital Acquired Conditions (HAC) payment provision.

CMS has identified specific HACs that are associated with the Present on Admission (POA) indicator. POA indicators will be used in determining which diagnosis codes will be considered when assigning the APR-DRGs and will potentially affect the provider reimbursement amount. The diagnosis codes that are taken under consideration as HACs require a POA indicator to determine whether they will be included in the DRG Grouper. If the primary, secondary, or external diagnosis code has a POA indicator of N or U, and a HAC is present, that code will be excluded from the DRG grouper. Only those HACs with a POA code of 'Y' or 'W' will be included in the DRG grouper. If the POA indicator is a 1 or blank, and the diagnosis code is exempt from POA reporting as determined by CMS, that code will be included in the DRG grouper.

The Centers for Medicare and Medicaid (CMS) has a defined listing of ICD- diagnosis and procedure codes that are Hospital Acquired Conditions. DMAS has adapted these same diagnosis and procedure codes. For a complete listing of the codes, please refer to the Centers for Medicare and Medicaid Services (CMS) website at: https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HospitalAcqCond/Hospital-Acquired_Conditions.

Effective for dates of service on or after July 1, 2012, DMAS will expand the HAC provision to inpatient psychiatric facilities, including freestanding EPSDT psychiatric hospitals and state mental hospitals; and inpatient rehabilitation hospitals. These changes are to comply with federal regulations related to the Affordable Care Act.

These facilities are paid on a per-diem methodology and HAC reimbursement adjustments will be made using a day reduction schedule. The day reduction schedule will include all ICD- codes that qualify as HACs and the average length of stay for each diagnosis. Claims with an ICD-code identified as an HAC and a POA code of 'N' or 'U' will have their total length of stay reduced by the average length of stay for the hospital acquired diagnosis code. For psychiatric claims with a 21-day limit, the total length of stay will be calculated based on the days prior to any HAC reduction. The day reduction schedule is based on the Thomson Reuters single average length of stay for each diagnosis code identified as an HAC. In the event, the day-reduction creates a partial day(s), DMAS will round to nearest full day reduction.

New HAC Exclusion

In accordance with federal regulations in response to the Affordable Care Act, DMAS will exempt from HAC consideration, cases where the onset of a deep vein thrombosis (DVT) and/or pulmonary embolism (PE) occurs in pediatric or obstetric patients following a total knee or hip replacement procedure.

Never Events

Effective July 1, 2009, DMAS will also implement CMS's guidelines related to Never Events. A Never Event is a serious preventable error in medical care. DMAS will not cover Never Events. CMS has identified three Never Events: wrong surgery on a patient, surgery on wrong body part and surgery on wrong patient. Whenever any of these events occurs with respect to a covered Medicaid member, the hospital shall immediately report such event to DMAS at the following address:

Supervisor, Payment Processing Unit

Division of Program Operation

Department of Medical Assistance Services

600 East Broad Street, Suite 1300

Richmond, Virginia 23219

If after notification, it has been found the hospital received payment from DMAS, the claim will be voided immediately. The hospital shall neither bill, nor seek to collect from, nor accept payment from DMAS or the member or the member's family/legal guardian for such an event. Any deductible, co-payment or any other monies collected from the member or the member's family/legal guardian related to this hospitalization shall be refunded immediately. The Hospital will cooperate fully with DMAS in any DMAS initiative designed to help analyze or reduce these preventable adverse events. Should payment of these events be discovered during an audit process by DMAS or their designated agent, the monies paid by DMAS will be retracted.

Utilization of Interim Bill Types (Hospital)

Effective with admissions on or after March 1, 2006, DMAS accepts interim HIPAA compliant bill types for hospitals, intermediate care facilities, nursing facilities, residential treatment facilities, and hospice. This only affects the '3rd' digit of the bill type for claims submitted by all provider types listed above. This does not change any other billing requirements. The third digit reflects the following:

- 2 – first interim claim
- 3 – subsequent interim claim(s)
- 4 – final interim claim

This will affect the discharge status coding on the first and subsequent interim claims. Since these are interim claims, the discharge status must be '30' – still a patient. For the final interim claim, the discharge status must reflect a discharge or transfer status. Refer to your appropriate National Uniform Billing Manual for additional discharge or transfer status codes.

Admission dates are not affected by the use of interim claim bill types, but should be consistent among all interim claims.

Note: Third digit '1' indicates patient was admitted and discharged on this single claim.

Proper Procedure for Sending Checks for Claims Processing Errors

Do not send checks directly to DMAS when trying to refund the agency for claims processing errors. Providers are required to void and/or adjust their claims through the Virginia Medicaid Management Information System (VaMMIS) when they are associated with claims processing errors. If providers need further assistance, providers can also call the HELPLINE about how to process adjustments.

Once processed, adjustments or voids will be reflected on the next DMAS remittance advice, and any remaining payments will be adjusted accordingly. This process is designed to ensure provider claims are updated in a timely and accurate manner. All money paid by or submitted to DMAS must be associated with a corresponding claim. Failure to do so will result in inaccurate accounting and the potential for future adjustments and retractions once identified.

ClaimCheck/Correct Coding Initiative (CCI) (Hospital)

- Effective June 3, 2013, DMAS implemented the Medicaid National Correct Coding Initiative (NCCI) Procedure to Procedure (PTP) and Medically Unlikely Edits (MUE) edits. This implementation was in response to directives in the Affordable Care Act of 2010. These new edits will impact all Physicians, Laboratory, Radiology, Ambulatory Surgery Centers, and Durable Medical Equipment and Supply providers. Effective

January 1, 2014, all outpatient hospital claims will be subject the NCCI edits through the EAPG claim processing. Please refer to the Hospital Manual, Chapter 5 for details related to EAPG. The NCCI/ClaimCheck edits are part of the daily claims adjudication cycle on a concurrent basis. The current claim will be processed to edit history claims. Any adjustments or denial of payments from the current or history claim(s) will be done during the daily adjudication cycle and reported on the providers weekly remittance cycle. All NCCI/ClaimCheck edits are based on the following global claim factors: same member, same servicing provider, same date of service or the date of service is within established pre- or post-operative time frame. All CPT and HCPCS code will be subject to both the NCCI and ClaimCheck edits. Upon review of the denial, the provider can re-submit a corrected claim. Any system edits related to timely filing, etc. are still applicable.

- PTP Edits:

  CMS has combined the Medicare Incidental and Mutually Exclusive edits into a new PTP category. The PTP edits define pairs of CPT/HCPCS codes that should not be reported together. The PTP codes utilize a column one listing of codes to a column two listing of codes. In the event a column one code is billed with a column two code, the column one code will pay, the column two code will deny. The only exception to the PTP is the application of an accepted Medicaid NCCI modifier. **Note**: Prior to this implementation, DMAS modified the CCI Mutually Exclusive edit to pay the procedure with the higher billed charge. This is no longer occurring, since CMS has indicated that the code in column one is to be paid regardless of charge.

- MUE Edits:

  DMAS implemented the Medicaid NCCI MUE edits. These edits define for each CPT/HCPCS code the maximum units of service that a provider would report under most circumstances for a single member on a single date of service and by same servicing provider. The MUEs apply to the number of units allowed for a specific procedure code, per day. If the claim units billed exceed the per day allowed, the claim will deny. With the implementation of the MUE edits, providers must bill any bilateral procedure correctly. The claim should be billed with one unit and the 50 modifier. The use of two units will subject the claim to the MUE, potentially resulting in a denial of the claim. Unlike the current ClaimCheck edit which denies the claim and creates a claim for one unit, the Medicaid NCCI MUE edit will deny the entire claim.

- Exempt Provider Types

  DMAS has received approval from CMS to allow the following provider types to be exempt from the Medicaid NCCI editing process. These providers are: Community Service Boards (CSB), Federal Health Center (FQHC),Rural Health Clinics (RHC),

Schools and Health Departments. These are the only providers exempt from the NCCI/editing process. All other providers billing on the CMS 1500 will be subject to these edits.

- Service Authorizations:

  DMAS has received approval from CMS to exempt specific CPT/HCPCS codes which require a valid service authorization. These codes are exempt from the MUE edits however, they are still subject to the PTP and ClaimCheck edits.

- Modifiers:

  Prior to this implementation, DMAS allowed claim lines with modifiers 24, 25, 57, 59 to bypass the CCI/ClaimCheck editing process. With this implementation, DMAS now only allows the Medicaid NCCI associated modifiers as identified by CMS for the Medicaid NCCI. The modifier indicator currently applies to the PTP edits. The application of this modifier is determined by the modifier indicator of "1"or "0" in the listing of the NCCI PTP column code. If the column one, column two code combination has a modifier indicator of "1", a modifier is allowed and both codes will pay. If the modifier indicator is "0", the modifier is not allowed and the column two code will be denied. The MUE edits do not contain a modifier indicator table on the edit table. Per CMS, modifiers may only be applied if the clinical circumstances justify the use of the modifier. A provider cannot use the modifier just to bypass the edit. The recipient's medical record **must** contain documentation to support the use of the modifier by clearly identifying the significant, identifiable service that allowed the use of the modifier. DMAS or its agent will monitor and audit the use of these modifiers to assure compliance. These audits may result in recovery of overpayment(s) if the medical record does not appropriately demonstrate the use of the modifiers.

  Modifiers that may be used under appropriate clinical circumstances to bypass an NCCI PTP edit include: E1 –E4, FA, F1 – F9, TA T1 – T9, LT, RT, LC, LD, RC, LM, RI, 24, 25, 57, 58, 78, 79, 27, 59, 91. Modifiers 22, 76 and 77 are not Medicaid PTP NCCI approved modifiers. If these modifiers are used, they will not bypass the Medicaid PTP NCCI edits.

Billing Instructions Reference for Services Requiring Service Authorization

Please refer to the "Service Authorization" section in Appendix D of this manual.

Hospital-Based Physician Billing (Hospital)

Hospital-based physicians must submit separate billings to DMAS for their professional fees

(components) utilizing the CMS-1500 (02-12) billing form. Combined billing of the professional fees on the hospital's invoice (UB-04 CMS-1450) is not allowed by DMAS except for authorized transplant claims. Please refer to Chapter V of the Physicians Manual.

Mother/Newborn Billing (Hospital)

All newborn enrollments are processed by Cover Virginia. Hospitals access an online web form to submit an electronic newborn DMAS-213 enrollment form. The online E-213 form is accessed through the VaMMIS provider portal. Once the provider logs into VaMMIS, a hyperlink is available in the Quick Links menu. When the child is enrolled a notice of action with the child's new twelve digit Medicaid identification number is emailed to the hospital worker who submitted the E-213 form. This Medicaid identification number will be for billing purposes.

A DMAS-213 form may also be faxed to Cover Virginia. The DMAS-213 paper form for faxing is included in the "Exhibits" section at the end of the chapter. The mother/guardian will need to call the Cover Virginia Call Center to submit a telephonic DMAS-213 form for enrollment.

Claims for newborns must be billed under the newborn's unique Medicaid identification number. Claims for newborns born on or after January 1, 2000, are to be billed using any combination of revenue codes, and their claims will be reimbursed based on the DRG payment methodology.

Claims for newborns born to a MCO enrolled mother at the time of birth must be sent to the mother's MCO. The MCO is responsible to cover the infant for the birth month plus two months.

Billing for Transplant Services (Hospital)

Reimbursement for organ transplants is a global fee that covers procurement costs, all hospital costs from admission to discharge for the transplant procedure, and total physician costs for all physicians providing services during the transplant hospital stay, including radiologists, pathologists, oncologists, surgeons, anesthesiologists, etc. The global fee does not include pre-and post-hospitalization for the transplant procedure, pre-transplant evaluation, or organ search. To ensure that reimbursement is calculated correctly, hospitals must include all physicians' fees on the claim. Reimbursement shall be based on the global fee amount or the actual charges, should they be less than the global fee. Send the claims for the transplant procedure directly to:

Manager, Payment Processing Unit

Department of Medical Assistance Services

600 East Broad Street

Richmond, Virginia 23219

Organ transplants must be authorized prior to rendering the service. Service authorization requests must be submitted by fax to DMAS Medical Support Unit. The number is 804- 452-5450. The hospital admission for the transplant procedure will be authorized separately by KEPRO. The organ transplant must be authorized before the hospital admission can be authorized. See Hospital Manual, Appendix D.

Outpatient Hospital Preventable Emergency Room Claim Changes (Hospital)

Beginning with dates of service on or after July 1, 2020, the principal diagnosis code (locator code 67 on the UB-04) will be reviewed for all claims billed with Emergency Room (ER) CPT procedure codes 99281 through 99284. If the principal diagnosis code on the claim is contained in the Preventable Emergency Room Listing, see EXHIBITS at the end of this chapter, the final payment will be based on an all-inclusive EAPG payment weight for CPT 99281. All other procedures on the outpatient hospital claim are packaged into the all-inclusive payment for 99281-99284. DMAS calculated a weight of 0.3085 for 99281 claims with a preventable diagnosis based on the data from FY2017 used in rebasing for FY2020. The July 2020 general release of the Virginia EAPG software by 3M included a customization of the Virginia EAPG software that implemented this reimbursement policy for preventable ER hospital visits. There is no change in claims processing for claims with CPT code 99285.

DRG-Related Billing Changes (Hospital)

DMAS will process and pay claims by All Patient-Diagnosis Related Group (APR-DRG) payment methodology. Proper coding of ICD diagnosis and procedure codes, as well as accurate and complete recording of all data elements that affect APR-DRG assignment, is very important to ensuring that the hospital is properly reimbursed. DMAS has implemented the following DRG payment methodology adjustments:

- Newborns
  - Must be billed under the newborn's unique Medicaid identification number.
- Split Billing
  - Will not be allowed on either the hospital or state fiscal year end. The DRG part of reimbursement will recognize all services on the date of discharge, and the per diem part of reimbursement will accumulate all days to the discharge date for reimbursement and cost settlement purposes.
- Transfers
  - Whenever a patient is transferred between a medical/surgical unit and a psychiatric unit of the same hospital or the focus of the principal diagnosis is changed from medical/surgical diagnosis to one that is psychiatric, the stay in

the medical/surgical unit must be billed as an admission and discharge separate from the treatment stay in the psychiatric unit. The medical surgical stay will be reimbursed under the DRG methodology as one distinct stay (discharge), while the days in the psychiatric unit will be reimbursed under the psychiatric per diem methodology. In addition, billing for each medical/surgical and psychiatric admission must coincide with the appropriate ICD diagnosis code supporting the admission and the service authorization type for appropriate reimbursement.

- A transfer case is a patient who is discharged from one hospital and admitted to another within five (5) calendar days with the same or similar diagnosis.
  - Effective with dates of admissions on or after July 1, 2020, a readmission to the same facility can be between six (6) to twenty (20) calendar days.
  - If the transferring hospital reports the correct patient discharge status code, the transfer case will be identified in the weekly processing and paid correctly as a transfer.
  - Implied Transfers
    - Transfer cases that are not identified through correct reporting of a patient discharge status code on the claim will be identified in the monthly APR-DRG case building process as "implied transfers."
    - When implied transfers are identified, a DRG payment may have already been made to the transferring hospital. This payment will be adjusted and a transfer per diem payment will be made.
    - These transactions will be reported on the remittance following the monthly cycle that identified the implied transfer.
    - The receiving hospital will receive the APR-DRG payment.
  - Transfer Reimbursement Example:
    - A member is admitted on 11/18/2020 and discharged on 11/22/2020 with a transfer discharge patient status of 02. The APR-DRG of 133 with severity of illness (SOI) of 4, DRG Weight of 001.9025, and Average Length of Stay (ALOS) of 7.38 is assigned.
    - The reimbursement calculation for this admission with specific provider rates is $14,369.21 divided by ALOS (7.38) = $1,947.04 (per diem) times 4 day hospitalization = approved payment of $7,713.18.

- Readmissions
  - A readmission occurs when a patient is discharged and returns to the same hospital within five (5) calendar days with the same or similar diagnosis.
  - Effective with dates of admissions on or after July 1, 2020, the readmission to the same facility can be between six (6) to thirty (30) calendar days. These cases are considered a single case rather than two. Readmissions will be

identified in the monthly APR-DRG processing cycle. Often when this occurs, one or both claims will already have been paid. The payment of the first claim will be adjusted to reflect a payment for the combined case, and an adjustment will be made to the second claim reflecting a zero payment.

- For readmissions between six (6) and thirty (30) days, the first hospitalization will receive the original APR-DRG payment and the second hospitalization will pay initially, however during the monthly DMAS case build process, the second claim will be adjusted to pay 50% of the calculated payment as a standalone claim[1]. The corrected processing will recognize all the coding and charges from both claims for purposes of APR-DRG assignment and potential outlier determination. These transactions will be reported on the remittance following the monthly cycle that identified the readmission.
- **Exclusions from the 6 to 30 day readmissions billing adjustments are:**

1. **Critical Access Hospital admissions:**

2. **Planned Readmissions:**

Planned readmissions that will be excluded from the reimbursement reduction will be identified by using procedures and diagnoses identified by CMS as "always planned" and/or patient discharge status. If the always planned procedures and diagnoses are modified, DMAS will update them at the beginning of the fiscal year.

Identifying Always Planned Procedures and Diagnoses

The list of always planned procedures and diagnoses is based on CMS contracted research submitted by Yale New Haven Health Services Corporation Center for Outcomes Research and Evaluation. This research can be found at the following link under "Version 7.0 Readmission Hospital Wide Report." The report is formally titled *2018 All-Cause Hospital Wide Measure Updates and Specifications Report – Hospital- Level 30-Day Risk-Standardized Readmission Measure – Version 7.0* and always planned procedures and diagnoses are listed in tables PR.1 and PR.2 (https://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment- Instruments/HospitalQualityInits/Downloads/Hospital-Wide-All-Cause-Readmission- Updates.zip)

Always Planned Procedures

CCS 64 – Bone marrow transplant (note that DMAS does not reimburse bone marrow transplants by APR-DRG)

CCS 105 – Kidney transplant

CCS 176 – Other organ transplantation (other than bone marrow, corneal or kidney) (note that DMAS does not reimburse transplants by APR-DRG except for kidney and corneal transplants)

ICD-10-PCS procedure codes corresponding to the identified AHRQ Clinical Classifications Software (CCS) categories can be found here (https://www.hcup-us.ahrq.gov/toolssoftware/ccs10/ccs_pr_icd10pcs_2020_1.zip).

For additional information on the AHRQ CCS for procedures, please visit the AHRQ Health Care Cost and Utilization Project website here (https://www.hcup-us.ahrq.gov/toolssoftware/ccs10/ccs10.jsp).

Always Planned Diagnoses

CCS 45 – Maintenance chemotherapy; radiology

CCS 254 – Rehabilitation care; fitting of prostheses; and adjustment of devices.

ICD-10-CM diagnoses codes corresponding to the identified AHRQ CCS categories can be found here (https://www.hcup-us.ahrq.gov/toolssoftware/ccsr/DXCCSR-vs-Beta-CCS-Comparison.xlsx). Go to

the tab labeled *"ICD-10-CM Code Detail"* and look up the *Beta Version CCS Category* for CCS 45 and 254 to identify associated ICD-10-CM codes.

Patient Discharge Status on the Initial Admission

In addition to excluding readmissions associated with always planned procedures and diagnoses, DMAS will exclude readmissions following an initial admission where the patient

had a discharge status of ≥81. Patient discharge status codes ≥81 indicate that the patient is being discharged or transferred with the expectation of a planned acute care hospital inpatient readmission. Refer to Locator 17 of the UB instruction further in this chapter. This criterion is intended to capture other planned admissions that are not included in the always planned procedures and diagnoses lists. It is important for hospital discharge staff to code this patient discharge status indicator correctly in order to identify these planned readmissions.

3. Obstetrical Admissions:

DMAS will use the following principal diagnosis codes to identify an obstetrical readmission excluded from the reduction policy.

- ICD-10-CM - O00-O088 - Pregnancy with abortive outcome
- ICD-10-CM - 009-00993 –Supervision of high risk pregnancy
- ICD-10-CM - O10-O169 - Edema, proteinuria and hypertensive disorders in pregnancy, childbirth and the puerperium
- ICD-10-CM - O20-O2993 - Other maternal disorders predominantly related to pregnancy
- ICD-10-CM - O30-O481 - Maternal care related to the fetus and amniotic cavity and possible delivery problems
- ICD-10-CM - O60-O779 - Complications of labor and delivery
- ICD-10_CM – 080-092.79 - Encounter for delivery
- ICD-10-CM - O94-O9A.53 - Other obstetric conditions, not elsewhere classified

4. Discharges against medical advice:

DMAS will use the following discharge status code on the first admission to exclude the readmission from a reimbursement reduction.

- 07 - Left Against Medical Advice

- **Medicaid Expansion Partial-Stay Eligibility Discharges:**
  - CMS has provided Federal Policy guidance to states as stated in "Medicaid and CHIP FAQs: Implementing Hospital presumptive Eligibility Programs" from January 2014 in Question 26 on the appropriate interpretation of 42 CFR §435.915 in regards to member eligibility at the time services are

provided. CMS instructed DMAS that there is no allowance of payment for ineligible dates of service regardless of the reason for ineligibility, such as: member is in a benefit program that does not cover inpatient acute care, or the coverage for Medicaid Expansion begins within the hospitalization from and through dates. DMAS will reimburse ONLY the portion of the hospitalization that the member is eligible for based on a per diem methodology.

- Example:
  - Member is admitted on 12/27/2020 and discharged on 01/11/2021 which is a 15 day hospitalization:
  - The patient had no Medicaid eligibility for dates of service 12/27/2021 through 12/31/2020. The patient became eligible for Medicaid Expansion on 01/01/2021 so the patient had 10 days of eligibility out of a 15 day stay
  - The APR-DRG assigned for the stay was 264 with a Severity of Illness (SOI) of 3 and a DRG Weight of 1.9822.
  - Total Medicaid hospital APR-DRG reimbursement for the entire stay would be $13,231.12. For partial stay eligibility the total APR-DRG reimbursement is only for the days that the patient had Medicaid eligibility. The total reimbursement ($13,231.12) is divided by 15 (total days of the stay) to get a per diem rate of $882.07. The per diem rate is then multiplied by the number of days the patient had eligibility ($882.07 x 10) to get the Medicaid partial-stay payment of $8,820.70.
  - The remittance advice will indicate that 15 days were billed and 5 days were cutback. There will be an error message code of #601 indicating Medicaid Expansion Cutback.
- Providers are to bill the complete length of stay regardless of eligibility (from admission through discharge) and utilize the appropriate bill types (111, 112, 113, 114) when submitting claims.
- Providers are responsible for obtaining the necessary service authorizations for the first eligible day.
- Provider inquiries related to the processing of Medicaid Expansion Hospitalizations may send them to MedicaidExpansion@DMAS.virginia.gov

- APR-DRG weights and rates are available on the DMAS website at: https://www.dmas.virginia.gov/#/hospitalrates

[1] Managed Care Organizations may choose to adjust the 2nd claim immediately and not part of a monthly process.

Long Acting Reversible Contraceptives (LARC) (Hospital)

Effective for dates of service on or after January 1, 2017, DMAS is updating its policy to include reimbursement for LARCs provided after delivery in inpatient hospitals. The reimbursement for the LARC will be considered a separate payment and will not be included in the Diagnostic Related Group (DRG) reimbursed to the Facility.

This information addresses LARCs inserted or implanted after delivery in inpatient hospitals only. The billing process for the inpatient LARC insertion differs dependent on the member's coverage.

LARC Device J Codes to be covered for separate facility reimbursement at inpatient hospitals are:

IUD:

- J7296 – Kyleena
- J7297 – Liletta
- J7298 – Mirena
- J7301 – Skyla
- J7300 – Paragard

Implant

- J7307 – Implanon/Nexplanon

Prior authorization is not required on any of the above J codes.

Billing Process #1 for Medicaid and FAMIS Fee For Service, Virginia Premier Health Plan, Aetna Better Health of Virginia, Anthem HealthKeepers, Magellan CompleteCare of VA, Optima Health Plan, and United HealthCare Community Plan:

In order to receive a LARC device payment that is separate from the DRG payment, hospitals will need to submit **two** UB-04 claims. The facility will receive two separate payments. The inpatient claim (bill type 011x) will be for the inpatient hospitalization and will be reimbursed via DRG. The second claim will be an outpatient claim (bill type 013x) for the LARC device only.

The following information is required on the outpatient claim: the applicable pharmaceutical revenue code (025x and/or 063x), LARC device J code (listed above) and National Drug Code (NDC) for the LARC device. The claim will be reimbursed via the current DMAS EAPG payment methodology for Fee-for-Service members. The health plans will make a separate payment that is at least the DMAS Fee-for-Service rates for the J codes. Hospitals participating in the 340B drug pricing program must conform to the program's billing requirements.

Billing Process #2 for Anthem HealthKeepers Plus and Optima Family Care Medicaid and FAMIS Health Plans:

Hospital Billing

Facilities will bill all charges including those for the LARC on one inpatient claim (011x). The bill must contain the revenue code 0250, LARC device J code. The J codes listed above are to be used on these claims.

Fraudulent Claims (Hospital)

Fraud means an intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to himself or some other person. It includes any act that constitutes fraud under applicable federal or state law.

Since payment of claims is made from both state and federal funds, submission of false or fraudulent claims, statements, or documents or the concealment of a material fact may be prosecuted as a felony in either federal or state court. DMAS maintains records for identifying situations in which there is a question of fraud and refers appropriate cases to the Office of the Attorney General for Virginia, the United States Attorney General, or the appropriate law enforcement agency.

Provider Fraud (Hospital)

The provider is responsible for complying with applicable state and federal laws and regulations and the requirements set forth in this manual. If electronically submitting claims or using electronic submission, use EDI format Version 5 prior to May 31, 2003. For electronic submissions on or after June 3, 2003, use EDI transactions specifications published in the ASC X12 Implementation Guides version 4040A1. The provider is also responsible for ensuring that all employees are likewise

informed of these regulations and requirements. The provider certifies by his or her signature or the signature of his or her authorized agent on each invoice that all information provided to DMAS is true, accurate, and complete. Although claims may be prepared and submitted by an employee, providers will still be held responsible for ensuring their completeness and accuracy. Repeated billing irregularities or possible unethical billing practices by a provider should be reported to the following address, in writing, and with appropriate supportive evidence.

Supervisor, Provider Review Unit

Program Integrity Division

Department of Medical Assistance Services

600 East Broad Street, Suite 1300

Richmond, Virginia 23219

Investigations of allegations of provider fraud are the responsibility of the Medicaid Fraud Control Unit in the Office of the Attorney General for Virginia. Provider records are available to personnel from that unit for investigative purposes. Referrals are to be made to:

Director, Medicaid Fraud Control Unit

Office of the Attorney General

900 E. Main Street, 5th Floor

Richmond, Virginia 23219

Member Fraud (Hospital)

Allegations about fraud or abuse by members are investigated by the Member Audit Unit of the Department of Medical Assistance Services. The unit focuses primarily on determining whether individuals misrepresented material facts on the application for Medicaid or failed to report changes that, if known, or both, would have resulted in ineligibility. The unit also investigates incidences of card sharing and prescription forgeries.

If it is determined that benefits to which the individual was not entitled were approved, corrective action is taken by referring individuals for criminal prosecution, civil litigation, or establishing administrative overpayments and seeking recovery of misspent funds.

Under provisions of the State Plan for Medical Assistance, DMAS must sanction an individual who is convicted of Medicaid fraud by a court. That individual will be ineligible for Medicaid for a period of twelve months beginning with the month of fraud conviction.

Referrals should be made to:

Supervisor, Member Auditing Unit

Program Integrity Division

Department of Medical Assistance Services

600 East Broad Street, Suite 1300

Richmond, Virginia 23219

Molecular Pathology (Hospital)

DMAS covers Current Procedure Terminology (CPT) codes in the range 81200-81599 and S3854. Effective with dates of service on or after May 01, 2014, codes in this range will no longer require a service authorization.

DMAS considers genetic testing medically necessary to establish a molecular diagnosis of an inheritable disease when all of the following are met:

- The member must display clinical features, or
- Is at direct risk of inheriting the mutation in question (pre-symptomatic); and
- The result of the test will directly impact the treatment being delivered to the member.

It is up to the primary physician to ensure the aforementioned criteria are met for coverage of these tests. If these criteria are not met on retrospective review of claims by DMAS, then the payment for the physician, hospital and all related laboratory claims will be recovered.

Group Practice Billing Functionality (Hospital)

Providers defined in this manual are not eligible to submit claims as a Group Practice with the Virginia Medicaid Program. Group Practice claim submissions are reserved for independently enrolled fee-for-service healthcare practitioners (physicians, podiatrists, psychologists, etc.) that share the same Federal Employer Identification Number. Facility-based organizations (NPI Type 2) and providers assigned an Atypical Provider Identifier (API) may not utilize group billing functionality.

Medicare Crossover: If Medicare requires you to submit claims identifying an individual Rendering Provider, DMAS will use the Billing Provider NPI to adjudicate the Medicare Crossover Claim. You will not enroll your organization as a Group Practice with Virginia Medicaid.

For more information on Group Practice enrollment and claim submissions using the CMS-1500 (02-12), please refer to the appropriate practitioner Provider Manual found at www.dmas.virginia.gov.

Instructions for Billing Medicare Crossover Part B Services (Hospital)

The Virginia Medical Assistance Program implemented the consolidation process for Virginia Medicare crossover process, referred to as the Coordination of Benefits Agreement (COBA) in January 23, 2006. This process resulted in the transferring the claims crossover functions from individual Medicare contractors to one national claims crossover contractor.

The COBA process is only using the 837 electronic claims format. Refer to the applicable 837 Implementation Guide and the Virginia Medicaid 837 Companion Guide (https://www.virginiamedicaid.dmas.virginia.gov/wps/portal/EDICompanionGuides) for more information.

Beginning March 1, 2006, Virginia Medicaid began accepting secondary claims to Medicaid when Medicare is primary from providers and not just through the COBA process. If you receive notification that your Medicare claims did not cross to Virginia Medicaid or the crossover claim has not shown on your Medicaid remittance advice after 30 days, you should submit your claim directly to Medicaid. These claims can be resubmitted directly to DMAS either electronically, via Direct Data Entry or by using the CMS 1500 (02-12) paper claim form. Refer to the applicable 837 Implementation Guide and the Virginia Medicaid 837 Companion Guide (https://www.virginiamedicaid.dmas.virginia.gov/wps/portal/EDICompanionGuides) for more information.

An electronic claim can be sent to Virginia Medicaid if you need to resubmit a crossover claim that originally denied, such as for other coverage, or if you need to adjust or void a paid crossover claim, such as to include patient liability.

NOTE: Medicaid eligibility is reaffirmed each month for most members. Therefore, bills must be for services provided during each calendar month, e.g., 01/01/06 – 01/31/06.

Billing Instructions: Instructions for Completing the Paper CMS-1500 (02-12) Form for Medicare and Medicare Advantage Plan Deductible, Coinsurance and Copay Payments for Professional Services (Effective 11/02/2014) (Hospital)

The Direct Data Entry (DDE) Crossover Part B claim form is on the Virginia Medicaid Web Portal. Please note that providers are encouraged to use DDE for submission of claims that cannot be submitted electronically to DMAS. Registration through the Virginia Medicaid Web Portal is required to access and use DDE. The DDE User Guide, tutorial and FAQ's can

be accessed from our web portal at: www.virginiamedicaid.dmas.virginia.gov. To access the DDE system, select the Provider Resources tab and then select Claims Direct Data Entry (DDE). Providers have the ability to create a new initial claim, as well as an adjustment or a void through the DDE process. The status of the claim(s) submitted can be checked the next business day if claims were submitted by 5pm. DDE is provided at no cost to the provider. Paper claim submissions should only be submitted when requested specifically by DMAS.

Purpose: A method of billing Medicare's deductible, coinsurance and copay for professional services received by a Medicaid member in the Virginia Medicaid program on the CMS 1500 (02-12) paper claim form. The CMS-1500 (02-12) claim form must be used to bill for services received by a Medicaid member in the Virginia Medicaid program. The following instructions have numbered items corresponding to fields on the CMS-1500 (02-12)

Billing Instructions: Invoice Processing (Hospital)

The Medicaid invoice processing system utilizes a sophisticated electronic system to process Medicaid claims. Once a claim has been received, imaged, assigned a cross-reference number, and entered into the system, it is placed in one of the following categories:

Remittance Voucher

- **Approved** - Payment is approved or pended.
- **Denied** - Payment cannot be approved because of the reason stated on the remittance voucher.
- **Pend** - Payment is pended for claim to be manually reviewed by DMAS staff or waiting on further information from provider.

No Response - If one of the above responses has not been received within 30 days, the provider should assume non-delivery and rebill using a new invoice form. **The provider's failure to follow up on these situations does not warrant individual or additional consideration for late billing.**
